COMMUNITY MEETS HOME

With the pace of life at an all time high, we know that the small moments between stop and go are the moments that an Apartment Life team gets to shine. Our goal with Alexan on 8th is to foster a flourishing community where the residents feel seen, known, and invested in- right where they are. We don't want for their apartment to feel like a temporary landing place, we want for it to feel like home.

OUR VISION

OUR GOALS

BUILD LASTING RELATIONSHIPS

Domain at Phipps Plaza is one of the best communities I've lived in! They offer a great location, at great prices. The staff is super friendly, and will always go the extra mile to ensure their residents are happy.

I have been a resident since January, and I'm already convinced I'll be resigning my lease. The Resident Events are AMAZING, and once you see the beautiful pool area, you'll be sold! (I'm actually writing this laying by the pool. Lol)

Great location and community. Fantastic staff that are passionate about making your living experience the best it can possibly be. Love the community events that allow residents to meet their neighbors.

One of the best part of the apartment complex is the Cares program where they bring the entire complex together for different events. We moved to Atlanta from a new state and made dozens of new friends through the apartment complex program. It is great and well worth the money.

My fiance and I moved into the building about a year ago. Our favorite aspect of living at Domain is the sense of community. We always look forward to the apartment events. My personal favorites have been the dog Halloween costume contest (also Paisley, our dogs favorite), yoga in the courtyard, and the concert on the balcony. Some other highlights have been the brunch event as well as the California pizza and wine tasting night. The events always have a great turnout and attending them is a wonderful way to meet new people. We moved here not knowing anyone and thanks to the Cares Program we have made many lifelong friends at Domain.

I have lived here for 5 months so far and have loved being here. The residents at this place are fantastic and the location is unbeatable. On top of that there is a community event that is held every couple weeks for the residents which really brings everyone closer and is a great addition! All in all this is a great apartment complex!

2 great things about this apartment as of Oct 2017. 1. The community of people that lives is one of the most friendly that I have ever lived at, a lot in part to the dog park where dog owners can socialize. 2. The integration of the apartment with the Cares Program (I think this is an Atlanta thing?). They have put on several phenomenal community events that really bring folks together. The gym is also nice with
